Supreme Consultants representative meets with school social worker

Outcome of service(s) for youth is reported to school social worker

Supreme Consultants representative conducts family intake

PerformCare may recommend a Needs Assessment, MRSS, or other services

Supreme Consultant representative prepares family to present youth needs to PerformCare

- Supreme Consultants' In-Community Linkage Program assists school districts in connecting at-risk youth with State of New Jersey services provided by the Children's System of Care and PerformCare.
- Our process brings together the school's social worker, the youth's caregiver, and our community representative to ensure that the student receives the services needed.
- Intensive In-Community Service (IIC) is an analytical, focused goal oriented, and needs based clinical intervention that addresses emotional and behavioral challenges of youth with moderate to high needs. It is intended to stabilize and support the youth and family in an effort to deter more intensive interventions.
