

## The Arc of NJ Testifies at Assembly Human Services Committee Hearing

The Assembly Human Services Committee held a hearing last month on the topic of abuse and neglect of individuals with I/DD which included testimonies from family members and disability organizations in the State. Families talked about their experiences as well as pending legislation that would allow residential settings to have cameras in the common areas and in bedrooms under certain circumstances. Sharon Levine, Director of Governmental Affairs and Communications, testified before the Committee regarding Direct Support

Professionals and the work they did for individuals with I/DD during the pandemic. **(Pictured top row, second from the left.)** To continue reading, [click here](#).
