The Arc of New Jersey attended the annual Disability Policy Seminar in Washington, DC last month and then visited with members of New Jersey's congressional delegation. The informational sessions at the Seminar focused on threats to the lifeline programs which people with I/DD depend upon, as well as newly proposed provisions to the ABLE Act and special education issues. During our meetings with legislators, we advocated for their support against any potential cuts to Medicaid/Social Security, and to garner support and co-sponsorship for a number of bills making their way through the legislative process. We were joined by a number of fantastic advocates from The Arc of Mercer, The Arc of Warren and The Arc of Monmouth as well as our Board President Robert Hage.

Adults with intellectual and developmental disabilities can live in a variety of places in the community. One size does not fit all, so it’s never too early to get started on understanding the different housing options in your community. This webinar will give an overview of housing options available and what to keep in mind when identifying the best fit for the person with I/DD. It is geared for students 14-21, their families, and professionals in the field.

**An Overview of the New Jersey Early Intervention System**

What do you do when you are concerned about the ongoing development of an infant or toddler? We want you to know about the statewide system of supports and services for infants & toddlers with developmental delays called the New Jersey Early Intervention System. An Early Intervention evaluation may be the first step in determining a child's developmental strengths and needs. This assessment can measure whether a child is losing previously acquired skills or if he/she is not keeping up with typical development timelines. The goal of Early Intervention is to partner with families and "coach" them on ways to support their child's development during their everyday activities.

**Upcoming DDD Webinars**

For the specific dates and times, and to register for an Opportunity Expo, click here.
In the meantime, here is a general (not state specific) breakdown of what can happen to a person's assets, depending on whom they leave behind.

**Married with children:** When a married person with children dies without a will, all property, investments and financial accounts that are "jointly owned" automatically go to the surviving co-owner (typically the spouse or child), without going through probate, which is the legal process that distributes a deceased person's assets.

For all other separately owned property or individual financial accounts, the laws of most states award one-third to one-half to the surviving spouse, while the rest goes to the children. (To continue reading, click here. Want more information about planned giving? Click here.)
