“Access to Dental Care for People with Disabilities”

\$20 per participant and a chance to win a Dental Gift Basket

The New Jersey Chapter, American Academy of Pediatrics and St Joseph’s Health is sponsoring three Focus groups (for advocates and parents who speak English & Spanish) to learn why children and adults with disabilities have difficulties accessing dental services in New Jersey. If you are a parent of a child with disabilities or a self-advocate adult with disabilities, we would like to invite you to join a small group of other parent adults with disabilities to help us understand why. The feedback from the groups will be used to develop a series of webinars and public health messages for all people with disabilities.
