

Day 7

Applying for Medicaid Online

NJ FamilyCare usually encourages families to submit an online application when applying for Medicaid. An online application can be done, here: <https://dmahs-nj.my.site.com/familycare/quickstart>.

The online NJ FamilyCare application can be used for both “regular” Medicaid and ABD Medicaid. If a person specifically wants their application to be reviewed for ABD eligibility, they must ensure that, when answering the initial Medicaid application questions, to answer “yes” to the question “Has the Social Security Administration determined you disabled or do you want to be evaluated by the Division of Medical Assistance and Health Services due to a permanent disability?” Based on your answers to the initial screening questions, the following webpage will then tell you what Medicaid, regular or ABD, NJ FamilyCare recommends that you should be applying for.
