

Day 10

Managed Care Organizations (MCOs) or Health Plans

NJ FamilyCare enrollees must choose an MCO/health plan that provides health coverage services. There are 5 available health plans in New Jersey: **Aetna Better Health of New Jersey, Fidelis Care, Horizon NJ Health, United Healthcare Community Plan, and Wellpoint.** Fidelis Care does not serve Hunterdon County, otherwise, all the plans serve the entire state. **All 5 plans offer the same healthcare services!** But a family should be looking to choose a health plan that their doctors accept. You should also typically choose your preferred health plan when filling out the Medicaid application. Otherwise, you will be notified that you must choose a health plan by a certain deadline, or risk losing Medicaid eligibility. After enrolling in a health plan, you can always call NJ FamilyCare and request to enroll in a different health plan, for a good cause reason. You would call NJ FamilyCare at **1-800-701-0710** to do so. See the DMAHS Medicaid Managed Care homepage: <https://www.nj.gov/humanservices/dmahs/info/resources/care/>.
