

About Our Company

At Beyond Behavior, we provide personalized Applied Behavior Analysis (ABA) therapy that is tailored to the unique needs of each individual. Our services are focused on promoting skill development, improving communication, and encouraging social engagement. We work together to create meaningful treatment plans that foster long-term success. Our goal is to empower individuals to reach their full potential, thrive in all areas of life, and actively participate in their communities.

**Exceptional care for
individuals with
autism and other
developmental
delays**

What is ABA?

Applied Behavior Analysis (ABA) is a science-backed approach to improving skills, reducing challenging behaviors, and enhancing the quality of life for children with developmental and behavioral challenges.

Behavior analysis helps us to understand:

- How behavior works
- How behavior is affected by the environment
- How learning takes place

ABA therapy programs can help:

- Increase language and communication skills
- Improve attention, focus, social skills, memory, and academics
- Decrease problem behaviors

How do I know ABA is right for me?

ABA (Applied Behavior Analysis) is recognized by the U.S. Surgeon General as one of the most effective, evidence-based treatments for autism. However, the benefits of ABA extend well beyond autism. ABA can support individuals with a range of developmental, behavioral, and emotional needs — helping to improve communication, social skills, emotional regulation, executive functioning, and behavior management. At Beyond Behavior ABA, our goal is to help each child learn new skills, build confidence, and thrive across home, school, and community settings.

HOW HELP HAPPENS

At Beyond Behavior ABA, we go beyond traditional ABA therapy by fostering an empathetic, child-centered approach. We provide compassionate, high-quality ABA therapy to individuals of all ages on the autism spectrum. Our treatment programs are individualized to each client's unique needs while ensuring they feel heard, seen, and respected every step of the way.

Our Mission

At Beyond Behavior, our mission is to go beyond behavior and embrace neurodiversity. We utilize a comprehensive treatment approach to help individuals and their families achieve the highest quality of life.

Our Services

In-home ABA services

Our In-Home ABA Therapy provides personalized, one-on-one support in the comfort of your home. Each program is tailored to your child's unique strengths and needs, focusing on skill development, positive behavior supports, and caregiver collaboration. Sessions are play-based, engaging, and designed to promote learning in your child's natural environment.

Clinic-Based Services - Coming Soon

We're thrilled to announce that our new Beyond Behavior ABA Clinic will be opening soon in North Cape May! Our clinic-based program will provide a structured, nurturing environment that encourages social interaction, communication, independence, and school readiness skills. Children will participate in play-based learning experiences designed to prepare them for the next step — whether that's preschool, kindergarten, or beyond.

Caregiver Support

Being a parent/caregiver is one of the most rewarding yet challenging experiences we can have in our lifetime, and we understand the importance of having a strong support system. We believe that parent and caregiver involvement is essential to the success of ABA therapy. We provide ongoing support and training to help you better understand your child's needs and how to effectively implement ABA strategies at home.
